

## REMARKS

In the reviewing the allowed claims Applicant noted that due to claim amendments some claim preambles were inconsistent and some terms may have lost their antecedent basis. This amendment corrects these issues without changing the intended scope of the claims. Thus, this amendment is editorial in nature and does not require substantial additional work on the part of the Examiner.

## CONCLUSION

Applicants respectfully submit that the present amendment is proper under 37 C.F.R. 1.312. If there are any remaining matters that may be handled by telephone conference, the Examiner is kindly invited to contact the undersigned attorney at the telephone number listed below.

Respectfully Submitted,
